

The Federal Government has the responsibility of making blanket protection regulations to protect the entire United States. The individual States have the right and responsibility to protect their citizens for the good of the whole. I believe Wisconsin has the right to protect their citizens above and beyond the responsibility of the Federal Government. Judging by the great reception the State's Do Not Call List has in Wisconsin - a good 80% - the people's voice should be heard and the Do Not Call List should remain in effect for our great State of Wisconsin.

Sincerely ~ April Malaszuk
